

Google Earth can be downloaded at <http://earth.google.com/download-earth.html>

The ConnecticutRegionSkiAreas.kmz file found on the Region's Website has the info that Google Earth needs to map the Ski Areas.

Some PCs may change the file extension to zip. When you save the file you should change it back to kmz

To Download Google KMZ file from the Region's website:

1. Right Click over top of Download File
2. Select Save Target As...
3. Select a place to save the file.
  - a. Save in Desktop
4. Change the file extension from zip to kmz
5. Hit the Save button
6. Go to your Desktop
  - a. Click on the file, ConnecticutRegionSkiAreas.kmz to run.
